International Prospective Registry on Pre-Pectoral Breast Reconstruction (I-PREPARE)

I-PREPARE EUBREAST-11R

Newsletter n.4 – 29 September 2025

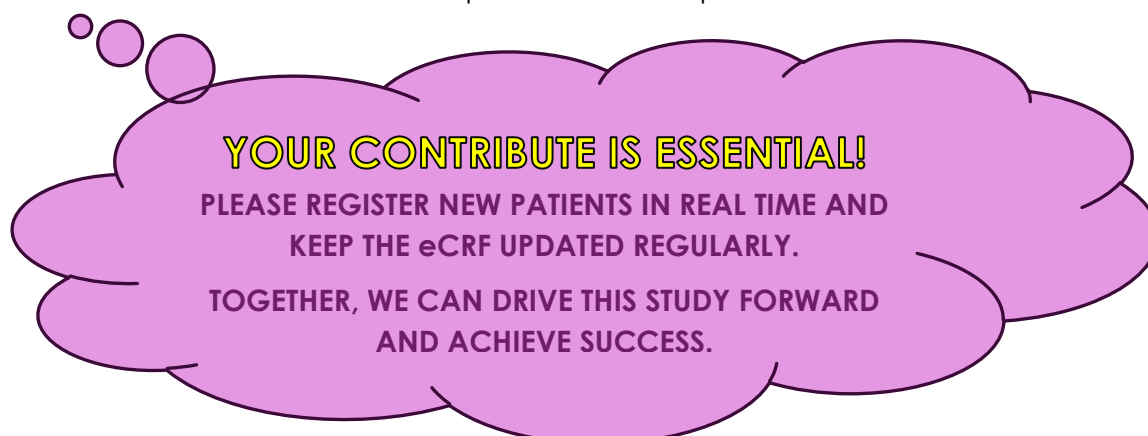

Dear **I-PREPARE EUBREAST-11R** Collaborators,

It is a pleasure to send you our September **NEWSLETTER** with the latest information about **the I-PREPARE EUBREAST-11R** study.

CLINICAL TRIAL STATUS

Currently, 29 sites from 12 countries are recruiting patients, with a total of **593 patients enrolled** so far in the study. In the previous months, **2 new centers have been activated** (Istituto Nazionale Tumori in Milan and Universitätsklinikum Ulm, Germany).

From July 2025, **104** new patients have been enrolled in the study: we would like to **thank** all the centers that were committed to screen and enroll patients over this period.

Note: Many more centers are almost active! Indeed, to be fully active, all centers need the written approval from their Ethics Committee/IRB and the authorization from the local hospital. Once you have received these documents, please contact us, so we can help you in the next steps.

Don't forget: a new amendment is on the way! It will extend enrollment until **December 2027**, giving every center the opportunity to complete necessary procedures and continue recruiting patients.

You can find out more information about this study on the **EUBREAST website** by clicking on [THIS LINK](#).

CONTACTS

For any clinical questions related to the Protocol:

Prof. Oreste D. Gentilini

Dr. Rosa Di Micco, demicco.rosa@hsr.it

For any questions related to the CRF and documents about the study:

CRO Aleph: cro@alephsrl.com

If you wish to represent your country and it is not listed,
email: Sarah Jennie Goldman, goldman@eubreast.com
